

We Work hard to build your dreams

Profile

SERAY DEVELOPMENTS is pleased to release Vergina 1674, yet another new project in one of the most distinguished, serene and sought-after areas of Vergina, District of Larnaca.

The project is conveniently positioned at the intersection of three highways leading to Nicosia, Limassol and Ayia Napa. It is a mere ten-minute drive to the Larnaca International Airport, City Centre, Finikoudes and Mackenzie beaches.

Vergina 1674 is less than a few minutes away from schools, supermarkets, shops, banks, sports facilities and gymnasiums, the Cineplex, the New Hospital and the Metropolis Mall.

Nestled in a lovely neighborhood in a dead end area, both backyards are attached to large areas of unbuildable land which can be converted into green space to the benefit of the houses.

Vergina 1674 consists of two houses with a covered area of 165 sqm, sitting on a plot of 300 sqm each.

VERGINA 1674
